

Cemetery Commission
Minutes
June 7, 2021

Present: Theodore Maxant, Bruce Dolimont, John Lee

The minutes from May 3, 2021 were read and approved.

The commission voted to rescind the Covid - 19 cemetery protocols.

The commission reviewed the building inspectors report on the condition of the building. All were opposed to opening the walls to check the condition of the wall cavities. They agreed to repair of the gutters.

The commission voted to approve up to \$800.00 for concrete blocks to rebuild the loam bin. The bin will be 4 ft high, 12 ft wide, and 10 ft deep.

The commission discussed pre-payment for grave openings (payment of the grave opening fee well in advance of the funeral). It was agreed that the commission will not encourage the practice, but will approve requests on a case by case basis. There would be a need to record that a payment made on the lot registration card.

Theodore will look into purchasing trees for a fall planting.

Next meeting June 7th
