

MAY
31

Do you love Harvard's waterways, conservation lands, orchards, trails, parks, and open spaces?

Are you concerned about the effects of a changing climate?

Come hear local committees, boards, organizations, and others working to protect and sustain our natural and municipal resources - and how you can help!

Presentations - Q&A

Climate Risk and Resiliency in Harvard

Harvard Town Hall
Thursday May 31 7-9pm

Participants will address these questions:

What are the risks to Harvard and our natural resources from climate change?

What are your current and future plans to address them?

How can Harvard officials and residents support these efforts?

Sponsored by:

Harvard Energy Advisory Committee
League of Women Voters - Harvard, MA
