

## **Transition Update: December 11, 2017**

Initial information sessions are being planned for February 2018 with the health insurers. The GICRMT retirees will be transitioning effective July 1, 2018.

### *Medicare*

A draft booklet for the Medicare plans is currently being reviewed by Fallon and Tufts representatives, and will be appearing shortly on this site. The Medicare plan rates for calendar year 2018 are available on this website.

### *Non-Medicare*

It's early in the budget season to have actual rates for non-Medicare plans; a ballpark estimate of a 12% premium increase has been used by the Town for its own budgeting purposes as the preliminary Omnibus Budget documents are under review by the Selectmen. This percentage increase will be subsequently refined in mid-January.

### *Life Insurance*

Hartford Life is prepared to enroll interested GICRMTs for transition of their \$5,000 life insurance benefit (carried currently by Hartford Life via the GICRMT).
